

## A Guide to Building a Hospital-Based Palliative Care Program

The *Guide* is a comprehensive reference manual with step-by-step information and customizable tools for starting and sustaining successful palliative care programs in hospitals.

Based on the collective experience of the nation's leading palliative care programs, the *Guide* provides clear, concise content on:

- ▶ Developing the financial case for palliative care
- ▶ Winning institutional support
- ▶ Designing and implementing a program
- ▶ Managing a program with proven clinical and administrative tools

Here is what the experts are saying about the *Guide*

***“Success is assured when hospitals follow the advice in this Guide.”***

Charles F. von Gunten, MD, PhD, FACP  
Medical Director, Center for Palliative Studies,  
San Diego Hospice & Palliative Care  
Editor-in-Chief, *Journal of Palliative Medicine*

***“The Guide offers practical suggestions for quality palliative care and is an exceptional resource for nurse clinicians, educators and managers.”***

Betty Ferrell, RN, PhD, FAAN  
Research Scientist, City of Hope National Medical Center  
Co-chair Steering Committee, National Consensus Project for Palliative Care

***“The CAPC Guide is great. It covers all the information I wish we'd had when we started – what to create, how to make it financially viable for the health system, and how to sustain it.”***

Thomas Smith, MD  
Professor and Chair, Division of Hematology/Oncology & Palliative Care  
Massey Cancer Center of Virginia Commonwealth University Medical Center
