Hospice Care

This learning pathway includes continuing education resources for hospice teams to strengthen their skills in symptom management, communication with patients about goals of care, and support for family caregivers.

Dyspnea
Reducing physical and emotional suffering from dyspnea for patients with serious illness.

Nausea and Vomiting
Identifying and managing nausea and vomiting for patients living with serious illness and their caregivers.

Constipation
Assessing and managing constipation in people with serious illness.

Course 1: Comprehensive Pain Assessment
Conducting a comprehensive pain assessment to guide safe and effective treatment.

Course 14: Pain Management: Putting it All Together
Safe opioid prescribing for patients with serious illness, using the Federation of State Medical Boards (FSMB) Guidelines for the Chronic Use of Opioid Analgesics.

Prescribing Opioids: A Pocket Reference
Opioid pocket reference for providers including safe starting doses, equianalgesic chart, and standard dosing strengths. Center to Advance Palliative Care, 2019.

Critical Decisions in Advanced Dementia
Addressing common sources of suffering for people living with advanced dementia.
