

Opioid Prescribing Review for the Experienced Provider

This learning pathway contains advanced opioid prescribing training and tools, including risk assessment for substance use disorder, advanced opioid conversions, and managing side effects.

Course 3: Patient Factors that Influence Prescribing Decisions

Patient and family factors that influence prescribing decisions for patients with serious illness.

Course 4: Assessing Risk for Opioid Substance Use Disorder

Integrating routine risk assessment for substance use disorder when considering or using opioid therapy.

Course 8: Monitoring for Opioid Efficacy, Side Effects, and Substance Use Disorder

Ongoing evaluation of opioid benefits, risks, and side effects for the patient with serious illness.

Course 11: Advanced Conversions and Opioid Side Effects

Changing the route of opioid delivery, rotating opioids, advanced opioid conversions, and tapering opioids.

Course 13: Managing Pain in Patients At Risk for Substance Use Disorder

Pain management for patients with serious illness and high risk for substance use disorder, including risk assessment, monitoring, and when to refer for safe pain management.

Course 14: Pain Management: Putting it All Together

Safe opioid prescribing for patients with serious illness, using the Federation of State Medical Boards (FSMB) Guidelines for the Chronic Use of Opioid Analgesics.

Prescribing Opioids: A Pocket Reference

Opioid pocket reference for providers including safe starting doses, equianalgesic chart, and standard dosing strengths.
