

Symptom Management Designation

This learning pathway provides comprehensive continuing education in the management of common symptoms experienced by patients living with a serious illness. Clinicians can use CAPC Designation to demonstrate expertise in symptom management for this patient population.

Nausea and Vomiting in Patients with Serious Illness

Nausea and vomiting are common symptoms of serious illness, and can cause dangerous complications. Take this online course to learn practical skills to identify, manage, and reduce these symptoms.

Dyspnea in Patients with Serious Illness

Take this online course to learn how to manage dyspnea, including the physical causes of shortness of breath and the emotional impact on the patient.

Constipation in Patients with Serious Illness

Constipation occurs in at least 70% of patients living with a serious illness and often goes unrecognized. Take this online course to learn critical skills to identify and manage the impact of constipation.

Anxiety in Patients with Serious Illness

Take this online course to learn evidence-based strategies to identify and treat anxiety in patients with a serious illness.

Depression in Patients with Serious Illness

This online course teaches how to accurately identify and treat depression in patients living with a serious illness.
